 ⊗ DIE GRÜNEN

The politicians of the GRÜNEN, Die Linke and AFD have voted against the **opt-out regulation** (contrary to the majority of their actual party members) in Germany, which is practiced in many European countries.

OPT-IN

OPT-IN-REGULATION

The possible organ donor is determined by the family, which decides on the inheritance of the organs.

Organscandal 2012

People in Germany have since 2012 because of the **Organ donation scandal** that was present in the media, lost confidence in transplant medicine.

In the four **transplant centers**, serious **policy violations of varying degrees** were detected.

Systematic and deliberate **misrepresentation of preferential treatment** certain patients.

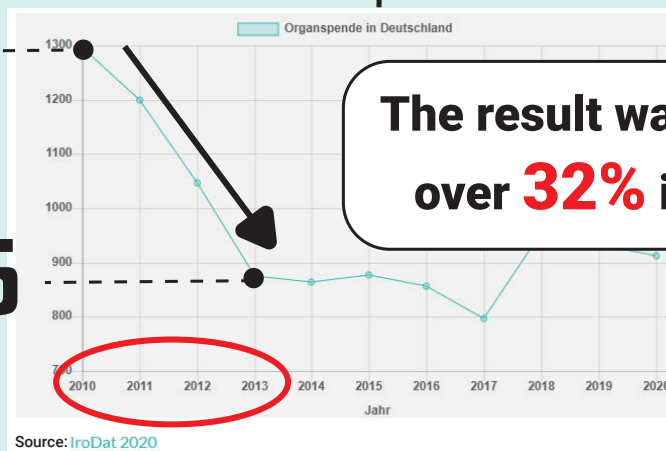

Clear indications of **systematic False information**

Documentation errors, clerical errors, Rating errors

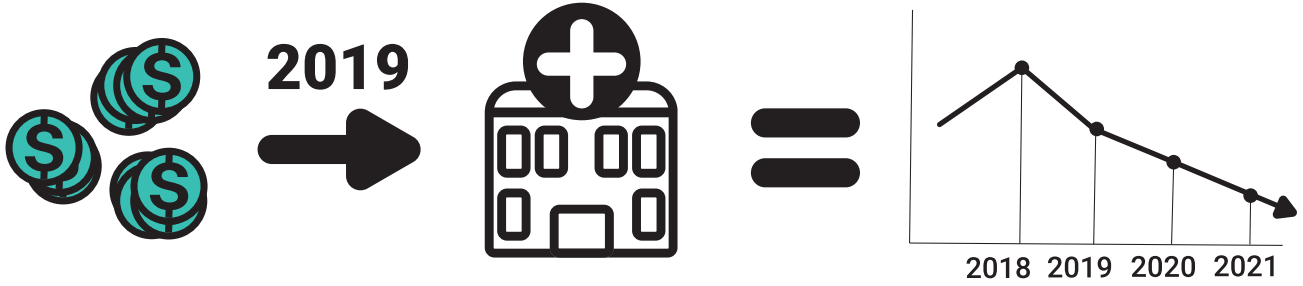

Accelerated conciliation procedures for liver donations

The result was a decrease of **over 32%** in 2010-2013.

Transplant medicine from clinics / hospitals have not implemented the requirements: Since 2019, they have received more funding. **Despite this equality among transplant physicians, there is no improvement.**

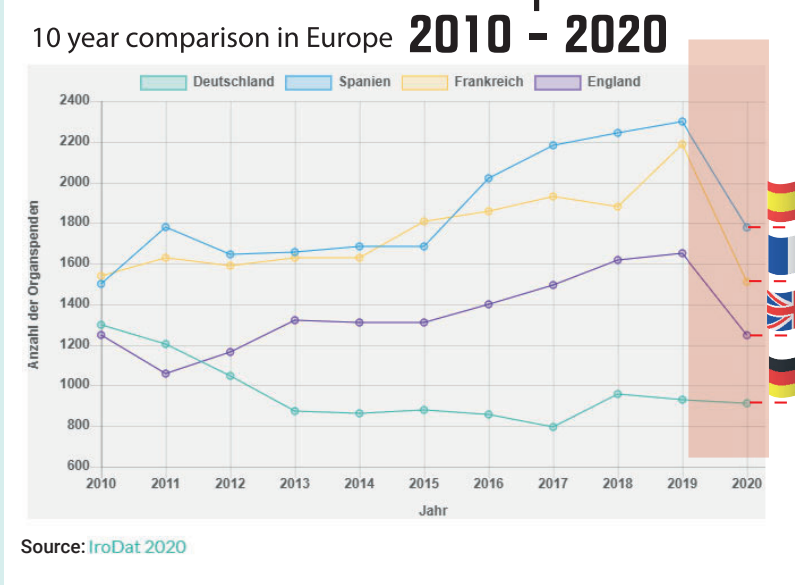

A retrospective analysis in Germany shows: In 2019 would have twice as many organs Can be donated as realized.

I dont know, what is!!?

If the clinics for these 2300 deaths mediated the transplant.

A joke of the day: "Since Corona, Germany has not been hit as hard as other countries that have very high Have losses in organ donation numbers!"

Stiftungen, Verbände und Organisationen

The societies (**associations, Foundations and organizations**) are included overwhelmed by the problem. This became clear in the silence and acceptance of the federal election on January 16, 2020 when it came to the subject of "contradiction rules".
